GLOBAL BRAND & DESIGN DIRECTION

Brand Personality

Modern, confident, and creative — but approachable. We’re not a corporate agency. We’re a local Chattanooga team that takes the work seriously and the atmosphere lightly. Think: sharp and professional with a personality behind it. We speak directly and plainly. We don’t pad our copy with buzzwords. We show what we do, say what it costs (or how to get a quote), and make it easy to move.

Voice & Tone

- Direct and confident, never arrogant
- Warm and local, never generic
- Creative but not cryptic
- Clear over clever — always

Color Palette

Variable	Hex	Use
Primary Dark	#324E66	Primary CTAs, headings, nav background, strong UI elements
Primary Mid	#5F7B94	Secondary UI, hover states, icon accents
Primary Light	#9DB6C9	Borders, dividers, subtle highlights
Off White	#E8EFF4	Section backgrounds, alternating panels
Warm White	#F7F4F3	Page base background, cards

Typography Direction

Use a refined, editorial-adjacent pairing. Suggested direction:

- **Display / Headings:** A strong serif or high-contrast sans-serif with personality (e.g., Playfair Display, Cormorant Garamond, or DM Serif Display)
- **Body:** A clean, readable geometric or humanist sans-serif (e.g., DM Sans, Outfit, or Figtree)
- Headings should feel authoritative. Body should feel easy to read.

Visual Style

- Clean layouts with intentional white space
 - Photography-forward (this is a visual media company — imagery must shine)
 - Subtle depth through layered cards, soft shadows, and section transitions
 - No cluttered grids. Let content breathe.
 - Dark #324E66 sections used strategically for contrast and weight (CTAs, hero areas, footer)
-

HEADER (Sitewide)

Layout: Fixed/sticky top navigation. Logo left-aligned. Nav links centered or right-aligned. Two CTA buttons on the far right.

Navigation Links:

- Home

Page SEO Meta:

- **Title:** High-Converting Ad Funnels for Chattanooga Businesses | [Agency Name]
 - **Meta Description:** Mobile-optimized, high-converting ad funnels for real estate agents, builders, and local businesses in Chattanooga, TN. Turn your ad clicks into real leads.
-

Section 1: PAGE HERO

Headline (H1):

Your Ads Are Getting Clicks. Are They Getting Clients?

Subheadline:

Most ad traffic doesn't convert because the landing experience is broken. We build mobile-first ad funnels that meet people where they already are — on their phones — and guide them to take action.

CTA: "Get a Quote" | "Learn How It Works →"

Section 2: THE PROBLEM WITH MOST ADS

Headline: Clicks Are Cheap. Conversions Are the Point.

Body:

You can run ads and get plenty of clicks. The real problem is what happens after the click. If your ad sends people to a slow website, a generic contact form, or a cluttered landing page — you're losing leads before they ever reach out. In a world where almost all of your audience is scrolling on their phone, the experience after the click has to be just as sharp as the ad that brought them there.

Section 3: WHAT WE BUILD

Headline: Mobile-First Funnels Built to Convert

Body:

We build fast, beautifully designed, mobile-optimized ad funnels that feel native to the platforms people use every day — Instagram, Facebook, TikTok. The experience is smooth, interactive, and intentional. Every step of the funnel is designed to reduce friction and move people toward one thing: reaching out to you.

What Makes Our Funnels Different:

Mobile-Optimized by Design

Built from the ground up for the way people actually scroll and engage on their phones. No desktop layouts squeezed onto a small screen. An experience designed for the thumb.

Fast-Loading & Frictionless

Speed matters. A slow page loses people before they even read a word. Our funnels load instantly and keep visitors moving forward — no page reloads, no friction.

Interactive & Engaging

Static forms don't convert. Interactive, conversational funnel flows keep people engaged, build micro-commitments, and dramatically increase the likelihood of follow-through.

Personalized to Your Audience

Funnels are built around your specific audience's pain points and goals — not generic templates. Whether you're targeting buyers, sellers, homeowners, or local customers, the experience speaks directly to them.

Qualified Lead Generation

We design funnel flows that pre-qualify your leads before they reach your inbox — so you're spending time on the people most likely to convert, not chasing unqualified inquiries.

Real-Time Analytics

Know exactly where people are dropping off, what's working, and what to improve. Data-driven optimization that gets better over time.

Section 4: WHO IT'S FOR

Background: #E8EFF4 **Layout:** 3-column card grid

Real Estate Agents

Generate buyer and seller leads with funnels designed to capture and qualify interest before the first conversation.

Construction & Contractors

Turn ad traffic into booked estimates and project inquiries with conversion-focused mobile experiences.

Local Businesses

Grow your customer base with funnels that attract your ideal audience and convert interest into action.

Section 5: BETTER TOGETHER

Headline: Funnels Work Best With a Full Strategy

Body:

Ad funnels work best when they're part of a bigger picture. Pair your funnels with our Social Media Management and Monthly Brand Content services to build the kind of consistent presence that makes your ads work harder. When people already recognize your brand, they're more likely to convert.

CTAs: "See Social Media Management →" | "See Monthly Brand Content →"

Section 6: BOTTOM CTA

Background: #324E66 **Headline:** Ready to Turn Your Ads into a Real Lead System?

CTA: "Get a Quote"

PAGE 6: VIDEO

Page SEO Meta:

- **Title:** Video Production for Local Businesses in Chattanooga, TN | [Agency Name]
 - **Meta Description:** Professional brand videos and video production for local businesses in Chattanooga, TN. Tell your story, find your voice, and show up online with purpose.
-

Section 1: PAGE HERO

Headline (H1):

Tell Your Story. On Camera. For Real.

Subheadline:

Professional video production for Chattanooga businesses ready to show who they are, what they do, and why people should choose them — on the platforms where it actually matters.

CTA: "Get a Quote" | "Book a Call"

Background: Full-bleed video or cinematic still of a video production moment — camera, talent, behind the scenes, or brand shoot.

Section 2: THIS IS NOT REAL ESTATE VIDEO

Headline: Your Business Has a Story. Let's Film It.

Body:

This page isn't about listing videos or property walkthroughs — that's over on our Real Estate Media page. This is about you and your business. It's about finding your brand's visual identity and voice on camera, and creating video content that actually represents who you are and why you're worth hiring.

Whether you're a restaurant, a contractor, a fitness studio, a law firm, or any other local Chattanooga business — if you want video content that looks polished and connects with your audience, this is where we start.

Section 3: WHAT WE PRODUCE

Headline: What We Create **Layout:** 2-column or stacked feature blocks

Brand Story Videos

The foundational piece of your video presence. A professionally produced film about your business — who you are, what you do, what makes you different, and why customers should trust you. Designed to live on your website, social media, and anywhere you introduce your brand.

Business Promotional Videos

Service spotlights, product demonstrations, seasonal promotions, and announcement videos — all produced with the same care and quality as your brand's flagship content.

Social-Ready Short-Form Video

Vertical, short-form video content produced for Instagram Reels, TikTok, and Facebook. Grab attention, deliver value, and drive people to take action — built for the platforms your audience actually uses.

Team & Culture Videos

Introduce the people behind your business. Culture and team videos build trust, support hiring efforts, and humanize your brand in a way that photos alone can't.

Event Coverage

Grand openings, community events, milestones — professionally filmed and edited to turn your real-life moments into marketing content.

Have something specific in mind? We're here for it. Tell us what you're going for and we'll help you figure out how to execute it.

ADDITIONAL NOTES FOR WEBSITE BUILDER

- All pages should have consistent spacing, padding, and section transitions.
- Buttons across the site use two styles: **Primary** (#324E66 fill, white text) and **Secondary/Outline** (border #324E66 , text #324E66 , transparent fill).
- Every service page should have at least 2 CTA sections — one in the middle and one at the bottom.
- Mobile responsiveness is non-negotiable. Most of the target audience (especially real estate agents) will view this on their phones.
- Include a contact/quote form that asks: Name, Email, Phone, Service Interested In (dropdown), Brief Description of Project/Needs.
- Booking flow (for Real Estate Media) should connect to an online ordering system or calendar tool.
- Image placeholders throughout should be labeled clearly (e.g., [PHOTO: Interior lifestyle real estate shoot] , [PHOTO: Drone aerial shot of Chattanooga property] , etc.) so content can be swapped easily.
